

Saturday 6<sup>th</sup> June, 2026

the studio, 7 Cannon Street, Birmingham, B2 5EP

9am-5pm

Musculoskeletal  
Association of  
Chartered  
Physiotherapists

## Delegate feedback from Study Day 2025

### Same venue, same format

- More of these opportunities are welcomed. **Having time to listen to the experiences of others as the profession is at a real cross roads. We have so much to offer and need to ensure we position ourselves to deliver what we know we are capable of.** There are exciting opportunities but keeping people both service users and clinicians themselves at the heart is critical
- **Brilliant food, lots of space and easy access to venue from station.** Speakers covered relevant topics and were enthusiastic and friendly. Good opportunity for networking. **Learned lots, left feeling very inspired and happy to have been surrounded by like minded, driven and passionate individuals.**
- Loved the **interactive nature** of the day and the way the presentations flowed
- Venue & food were excellent. **Speakers were inspiring &** presented interesting topics
- .. being able to see people face to face and have some **time to connect and meet new people.** The room set up encouraged conversations from the start and the relaxed informal nature of the presentations encouraged conversations at tables. The smaller numbers also made the day less intimidating and more informal.
- In person learning; **engaging, articulate, and thoroughly interesting speakers;** enjoyed variety of subjects covered; sociable, welcoming atmosphere and chance to network in relatively intimate environment - more conducive than bigger events; great venue and food.
