Overview of Year

Progress against organisation's strategic aims

1. To grow brand awareness of the MACP organization through membership activity

The role of knowledge translation, mobilisation, and transformation within the MACP continues to evolve. Recent involvement in the CSP's knowledge exchange programme on evidence as well as MACP involvement with a focussed symposium on knowledge mobilisation at the English CSP conference in November. A strategy document has been drafted and is due to be reviewed and shared. There is a continued commitment by the MACP to be a driver of knowledge, and the way it is mobilised and transformed, within communities of practice being a key driver for development within and outside of the MACP community.

2. Communicate the Executive Committee and sub-committee activities, knowledge translation, education.
 - MACP engagement and representation in CSP knowledge exchange – online webinar October 2023.
 - MACP engagement and representation in CSP England Conference November 2023.
 - Completion of the mapping of Complex Clinical Reasoning Programme for NHS England to the MSK Advanced Practice Standards – awaiting external review.
 - MACP engagement and representation at the National MSK Conference 2023.
 - Development of strategy – pending verification and agreement – due for release 2024.

- Survey drafted to determine MACP preferences for approaches to Knowledge translation, mobilisation and transformation.
 - Creation of introduction to diagnostic MSK US with Stuart Wildman MMACP
3. Improve understanding on meaning / value of membership

Engagement of members planned through survey pending.

Implementation of Complex Clinical Reasoning Programme mobilisation for all MACP members having first access to forms and engagement to communities of practice and knowledge engagement events through close working with both the Communications team and PDC committees.
