5 Membership numbers and trends

The Chair reported that trends remain static although associate membership has risen due to portfolio route. It was confirmed that the MACP is managing some challenges due to some of its HEI routes (sadly) closing and as Alison Rushton kindly brought up just now, it was asked at the last AGM to explore this trend through the CEA. Some summary comments from this feedback were displayed on a slide and some key points mentioned:

- Funded FCP/ACP routes creating competition.
- Additional HEI work required to host an MACP course.
- Above combined = less demand. Less demand = more reason for HEIs to drop us.
- MCP a barrier for those on the HEI routes - some due to myths & misconceptions, others don't see value, others the logistics.
- When MCP is a barrier, funded FCP/ACP routes provide an alternative.
- Associate membership numbers - £80 per annum cost is a *significant barrier*. The MACP is looking to reduce this figure for the 2026 membership year.

Essentially the placement challenges and competition through advanced practice and FCP offering alternatives to MACP courses – this is the nature of what was fed back to the Committee.

The Chair displayed all the new members from the past 12 months on the screen and congratulated all the new members.

The new member certificates will be sent via post to the new members.

The Chair advised those present that there had been 20 new members who had joined the MACP in 2024-2025.
