Statement to support re-standing:

I am passionate about education and professional development, in particular our MACP one day courses that allow the development of existing physios at all levels. Organising these courses is essential to provide the membership with to date research, clinical practice guidance with live clinical discussions lead by world class tutors. I have 8 years of experience of both being a member of the PDC and the professional development lead. I would love to continue in this role to build our 2026 strategy and increase our course portfolio for members for MSK profession.
