

MACP AGM 2026

16th November 2026, 6.30pm-8.30pm

Report:	Knowledge Mobilisation, Translation and Transformation
Committee Member:	Matthew Low
Date of report:	17/09/2026

Overview of Year

Successful Study Day 6th June 2026 – [MSK Practice at a Crossroads: Complexity, Innovation and Leadership](#).

Successful submission for [CSP conference](#) Glasgow 2026 focussed symposium and workshop sessions.

Due to deliver [workshop](#) session titled Menopause Musculoskeletal Syndrome: A Diverse and Preventative Management Approach.

As well as a [focussed symposium](#) titled [Beyond Biomechanics: Metabolic Reasoning and Systemic Prevention in MSK Care](#).

Progress against organisation's strategic aims

1. To grow brand awareness of the MACP organisation through membership activity
 - The role of knowledge translation, mobilisation, and transformation within the MACP continues to evolve. The MACP have, again, been successful in having a focussed symposium, a skills session and networking session accepted at the CSP conference in Glasgow 2026.
 - The MACP Study Day engaged with multiple stakeholders from the CSP (Ash James), digital technology experts (Chris Efford), clinical leaders and researchers (Professor Roger Kerry, Dr Georgopoulos, Dr Horsley, Dr Walumbe, Dr Noblet, Alexander

McCall, Samantha Simmonds, Chris Mercer, Jayne Davies, Dr Langridge) and the [environmental physiotherapy network](#) (Leanne Wiles).

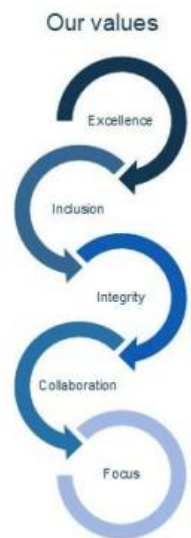

- The MACP strategic plan that places career pathways, influence and partnerships alongside sustainability and quality standards support a subtly shift in the Knowledge Translation priorities. There is current engagement with HEI partners to support knowledge translation in the transitional stages of early clinical education toward the MACP programmes.

2. Communicate the Executive Committee and sub-committee activities, knowledge translation, education.

- MACP delivery and representation in CSP Conference October 2026.
- MACP representation at Study Day 2026 – plan for study day 2027.
- Build communities of practice in line with MACP strategy.

3. Improve understanding on meaning / value of membership

- Successful conceptualisation and delivery of MACP study day 2026.

Key Development Plans for 26/27

- Partner with HEI leads, CEA and communications team to develop stages of knowledge translation material in line with career development.
- Complete introductory videos on the Complex Clinical Reasoning Programme with descriptions across each of the nine e-learning modules. Plan to link in with current National AP supervision Guidance.
- Continue to create MACP podcast series on interesting, remarkable and important topics related to MSK Physiotherapy.
- Develop a Critical MSK Physiotherapy Series.

Information / Other Headings relevant to your role

Continue to grow a team for knowledge mobilisation and transformation 2026/27. Andrea Linser recruited with succession planning in place.

Continue to co-create strategic planning and delivery alongside CEA and PDC committees.
