

MACP AGM 2023

Report:	Professional Development Report
Committee Member:	Komal V Bhuchhada Msc MACP
Date of report:	21.09.23

Overview of Year

This year the Professional Development Committee (PDC) launched the new Understanding Medication in Pain Management course and the recognition and referral of Axial and Peripheral Spondyloarthritis course. There has been a large virtual delivery this year with the advanced practice courses delivering well via this mode. We have started to receive some enquiries about hosting face to face courses again at some venues and this is also really positive.

Our courses this year have had international participants and have also been delivered from the UK and Australia.

The PDC consists of ***Samantha Simmonds, Sinead Delaney, Tina Blewett, Feroz Mohamed, Basil Tyros, Ashish Sharma, Jenna Jagodzinska and Hazel Rudder and James Roberts***. Our courses would not run without such a fantastic team who promote, advertise, design posters and host these courses. The PDC still promotes on various platforms including Instagram, Twitter (X), frontline and iCSP.

The team consistently dedicate their time and effort to promote, meet tutors and virtually host our courses. This allows tutors to concentrate on the course itself rather than the technical aspects.

Progress against organisation’s strategic aims and sub- specialist aims.

All courses are delivered by expertise in their fields. Each course has been mapped to the FCP roadmap at a high standard to support MACP portfolio. The most popular courses requested and sold are the advancing roles courses.

Existing MACP Courses

- Spinal Masqueraders
- Spinal Masqueraders Expanded
- Integrating Imaging into Musculoskeletal practice Lumbar Spine
- Integrating Imaging into Musculoskeletal practice Shoulder
- Integrating Imaging into Musculoskeletal practice Knee

 - Demystifying Blood Tests in MSK Health hosted by Tina
 - Understanding Medication in Pain Management by Tina
 - Spinal Masqueraders private purchase
- December 2023
 - Spinal Masqueraders private purchase

Key Development Plans for 2023/2024

- 1) Explore running courses at an international level whether this be face to face or virtual-increase international profile of courses
- 2) Aim to increase our course profile eg Exercise based rehabilitation course
- 3) Explore some face to face venues where courses can be held and organised my MACP rather than a hospital that will 'host'
