Brief biography, including any relevant experiences relevant to the role that you are interested in:

I have been on the MACP Executive Committee in different capacities initially as secretary and more recently in the role of Professional Network Officer.

In this time I have been able to contribute to the working of the Executive Committee's activities in different ways. In my role as PN Officer I had a focus on engaging with national groups such as ARMA and Versus Arthritis and more recently the other networks relating to musculoskeletal health.

In this time my experiences have suggested that I have a strong interest in communications around the MACP's activities with its membership, the CSP and other stakeholders. I would like the opportunity to contribute to the MACP's brand through writing and distributing content to promote its activities to a wide audience. I feel that with the sub-committee of people who contribute to content across the various social media platforms we can reach a wider audience to promote the organisation's key ambitions.

I work as an Advanced Practitioner and First Contact Practitioner in East Sussex. I have previously developed a team of physiotherapists to work as Advanced Practitioners across multiple anatomical pathways and represented my organisation with tendering processes, clinical governance with commissioners and acted as key msk link in primary care.

I have also been an external examiner for the University of Brighton and have been a tutor for the Lumbar spine program in the early 2000's with the MACP. I lecture on the post-graduate podiatry MSc at the University of Brighton on rehabilitation.

I qualified in 1997, gained MACP membership in 2007.
